

## ENVIRONMENTAL POLICY

MARINA CABO ROIG has a commitment for the protection of the environment, doing our best to offer

### **“pleasure and sport boats mooring services”**

appropriate to our customers' needs and environmentally friendly.

In that sense, the following are the main principles of our environmental policy:

- Efficient and appropriate use of natural resources.
- Promotion of reuse, recycling and waste management.
- Reduction and optimization of electricity and water consumption.
- Prevention, reduction and elimination of any kind of contamination.
- Observation of all applicable environmental regulations.
- Communication of all programmed goals and measures in order to achieve workers and users participation.
- Promotion of environmental life-long learning for the marina staff, aimed to keep knowledge updated, and to combine quality, environment protection and health at the workplace.
- To get suppliers and subcontractors involved in our environmental management, including quality and environmental criteria.
- Regular update and review of our environmental practices in order to regularly improve them.
